

The Residences at Qualicum Station

Our newest housing development project, The Residences at Qualicum Station, will provide 56 affordable rental homes to our community. The proposed development is centrally located within walking distance to downtown shops, schools, and recreation facilities.

The Residences at Qualicum Station will include a mix of studio, 1–bedroom, 2–bedroom and 3–bedroom suites, along with seven 3–bedroom townhouses. Twelve of the 1-bedroom suites will be fully accessible. Rents will be a mix of deep subsidy, rent geared to income, and market affordable rates.

Applications will only be accepted through the BC Housing Registry. You can find an application at:

<https://housingapplication.bchousing.org/olf/faces/welcome>

In your application you can specify that you are looking for housing in Qualicum Beach. Please note, however, that applications will not be reviewed until shortly before the project is ready for occupancy which is not expected to be until early 2024.

Qualicum-Parksville Kiwanis Housing Society is grateful to our partners, The Town of Qualicum Beach, BC Housing, Canada Mortgage and Housing Corporation and the Federation of Canadian Municipalities in making this project possible.
